

# Exert™

**Multi-functional adjuvant that contains NIS,  
lowers pH of water and aids in drift/deposition**

**Exert™** is a non-ionic, low foaming penetrant that enhances the activity and effectiveness of pesticides and provides more uniform coverage of spray mixtures. **Exert** improves deposition and reduces drift. It may be used as an acidifier to lower pH of spray solutions, thus preventing alkaline hydrolysis of pesticides sensitive to high pH. **Exert** may be applied to agricultural, forestry, industrial, turf and ornamental, and non-cropland sites. Not for aquatic use.
