

# Consume™

## A Water Conditioning Alternative to Ammonium Sulfate

**Consume™** is a multifunctional adjuvant designed to aid in the effort of managing difficult to control weeds. **Consume** provides adequate conditioning of the spray mix solution along with buffering the pH to alleviate the antagonistic effects from hard water minerals. **Consume** contains a tallow amine surfactant package along with a humectant, which allows for better wetting and spreading of the spray material onto the leaf surface. **Consume** helps to enhance the herbicidal activity on the target species and is ideal for use with most post herbicide tank mixes which include combination of products such as glyphosate and 2,4-D.
